MARELEC Food Technologies opens new division in USA

Innovative food-processing machinery manufacturer takes its presence in USA to the next level

MARELEC Food Technologies, a world-leading producer of intelligent portion cutters and customized weighing and grading solutions, will officially open the doors of its new division in Atlanta, USA on 1 February 2022.

Having a large installed basis of machines in the American market, the company recently decided the time was right to work even closer with its customers. MARELEC Food Technologies has operated very successfully in the USA over the past decade and sees great future potential in this fast-developing market. The establishment of its own USA division will ensure that MARELEC Food Technologies grows even further, while guaranteeing the best possible after-sales service.

Belgium-based MARELEC Food Technologies was founded in 1983 by Mr. Piet Rommelaere who commented: "USA has always been on the forefront to optimize food-processing lines for the production of high-quality food, resulting in maximum yield and maximum returns on investment. Our machinery fits perfectly with this philosophy. The new division, MARELEC USA, Inc., was the logical next step for us to continue our growth in USA."

The MARELEC USA, Inc. division, at 3372 Peachtree Road, Suite 115, Atlanta GA 30326, will be managed by James 'Scott' Russell, who has over 43 years of very successful experience and a very extended network in meat and poultry processing industry in Europe, the USA and Latin America. His understanding of the industry enables Scott to analyze and to understand customers' demanding applications in great detail in order to suggest the ideal type of machine. The MARELEC USA, Inc. division also has the backup of fully trained professional engineers to guarantee optimal after-sales service. The technical and commercial team at the Belgian headquarters will work in close cooperation with MARELEC USA, Inc.

Mr. James 'Scott' Russell
Vice President North America

About MARELEC Food Technologies

MARELEC Food Technologies has been active in the food-processing industry since 1983. The company designs and manufactures high-tech intelligent portioning, weighing and grading equipment for meat, poultry and fish processing food industries to optimize the efficiency of manufacturing processes.

Its team of enthusiastic engineers and designers is responsible for the development and production of these systems. A network of international distributors in over 50 countries is available whenever a MARELEC customer needs advice, rapid delivery, or the best possible local after-sales service.

Its systems are delivered across the world, with great attention to the individual requirements of its customers.
